KELLY’S CONCRETE DISSOLVER

A non-destructive acid for today’s environment using a molecular cement dissolver. KELLY’S CONCRETE DISSOLVER is a tried and tested alternative for removing hardened concrete from tools, mandrels, mixers, drains and even electrical conduits. It uses an active ingredient found in sugar cane syrup so the product is not hazardous to equipment or workers or paint. The detergent base utilizes unique green surfactants that are readily biodegradable and quickly break down into non-polluting compounds. It does not produce any fumes or odors and or contain muriatic, hydrofluoric, sulfuric or phosphoric acids.

The effects of sugar on concrete has been known for many years. In some parts of the world sugar is still commonly used to retard the set of mortar and other cementitious products. “Sugar affects both fresh and hardened concrete. Dry sugar has no effect on hardened concrete, but sugar solutions can be very corrosive.” This vulnerability has been turned into an opportunity to safely remove hardened concrete from a variety of surfaces that are otherwise difficult to clean. By molecularly attacking the Portland in cement it completely dissolves the hardened molecular structure back into rinsable mud. Kelly’s Concrete Dissolver actually breaks down the iconic bond in Portland cement, releasing the cement from any surface to which it has adhered. Chemically speaking, it essentially converts the positive ions in the hardened matrix into negative ions and then dissolves the cement into a mud that can easily be rinsed away. Another advantage is that it does not break down after continued use, so as long as liquid remains it will keep on dissolving concrete.

APPLICATION

Application and use are relatively simple. First the hardened concrete is saturated with Kelly’s Concrete Dissolver, either with a brush of by spraying. After about 15 minutes the same area is again saturated with the chemical. The concrete typically beings to soften in 20 to 30 minutes, at which point it should be rinsed off with water. Repeat applications can be used to remove thicker applications. It is very important to use the product undiluted. Because it works chemically, rather than mechanically Kelly’s concrete dissolver may be used to remove cured concrete, mortar, grout, and stucco from virtually any surface without harm.

AVAILABILITY

Kelly’s Concrete Dissolver is available in 5, 35, 65 and 275 gallon containers as well as a 16 oz. spray bottle. It is in stock ready to be shipped directly, nationally or internationally, to your location.

PRODUCT REFERENCES

It is non-regulated by DOT CFR49 (Sec. 173.24) and because it is biodegradable meets ASTM: E1720-01 and being non-corrosive meets ASTM: G-31.

This is turn allows it to be listed as approved with a Positive Environmental Profile on EPA design for the Environment Formulators Initiative Dfe) Safer Detergents Stewardship Initiative (SDSI).

SECTION 1: IDENTIFICATION

1.1. Production Identifier
Product Form: Mixture
Product Name: Kelly's Concrete Dissolver, Back-Set Molecular Cement Dissolver
Product Code: KC-G-xxx, back001

1.2. Intended Use of the Product
Use of the substance/mixture: Cleaning Compound

1.3. Name, Address, and Telephone of the Responsible Party
Company:
RoMix, Inc.
P.O. Box 1110
Colleyville, Texas 76034
1-800-331-2243
romixchem.com

1.4. Emergency Telephone Number
Emergency Number: Chem-Tel 1-800-255-3924, RoMix 1-800-331-2243

SECTION 2: HAZARDS IDENTIFICATION

2.1. Classification of the Substance or Mixture
Classification (GHS-US) (Canada)
Not Classified

2.2. Label Elements
GHS-US Labeling

Irritant R-36 Irritating to eyes
Signal Word: Caution

2.3. Other Hazards
H-320 (Causes eye irritation) Exposure may aggravate those with pre-existing eye, skin, or respiratory conditions.

2.4. Unknown Acute Toxicity (GHS-US)
No data available

SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

3.1 COMPONENT/SUBSTANCE | CAS-NO. | CONCENTRATION
ORGANIC CARBOXYLIC COMPOUND | *TRADE SECRET | *TRADE SECRET
LINEAR ALCOHOL ETHOXYLATE SURFACTANT | 68439-46-3 | 1.5%

3.2 Trade Secret Proprietary Status:
**Canadian Reference: HMIRA Registry Number 9337 Filing Date 2014-12-10
USA Reference: Section 4.11 CBI guide to GHS, OSHA 29 CFR 19.200 (i1) and/or CFR 350.
Should an emergency situation occur further substance information may be obtained by emergency room physician by calling the emergency information numbers(s) shown above

3.3 Mixture
This mixture and its components are not considered a hazard when used in a manner which is consistent with label instructions.
29 CFR 1910.1200 (f1) and the properties and effects of the components of this product are disclosed in this SDS.
SECTION 4: FIRST AID MEASURES

4.1. Description of First Aid Measures
First-aid Measures General: Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice (show the label if possible).
First-aid Measures After Inhalation: Remove to fresh air and keep at rest in a position comfortable for breathing. Obtain medical attention if breathing difficulty persists.
First-aid Measures After Skin Contact: Rinse immediately with plenty of water. Remove contaminated clothing. Wash contaminated clothing before reuse. Obtain medical attention if irritation develops or persists.
First-aid Measures After Eye Contact: Rinse cautiously with water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Obtain medical attention.
First-aid Measures after Ingestion: Do NOT induce vomiting. Rinse mouth. Immediately call a POISON CENTER or doctor/physician.

4.2. Most Important Symptoms and Effects, both Acute and Delayed
Symptoms/Injuries: Not expected to present a significant hazard under anticipated conditions of normal use.
Symptoms/Injuries After Inhalation: May cause respiratory irritation.
Symptoms/Injuries After Skin Contact: May cause skin irritation.
Symptoms/Injuries after Eye Contact: May cause eye irritation.
Symptoms/Injuries after Ingestion: Ingestion is likely to be harmful or have adverse effects.

4.3. Indication of Any Immediate Medical Attention and Special Treatment Needed
If you feel unwell, seek medical advice (show the label where possible)

SECTION 5: FIRE-FIGHTING MEASURES

5.1. Extinguishing Media
Suitable Extinguishing Media: Use extinguishing media appropriate for surrounding fire.
Unsuitable Extinguishing Media: Do not use a heavy water stream. Use of heavy stream of water may spread fire.

5.2. Special Hazards Arising From the Substance or Mixture
Fire Hazard: Not considered flammable but may burn at high temperatures.
Explosion Hazard: Product is not explosive
Reactivity: Hazardous reactions will not occur under normal conditions.

5.3. Advice for Firefighters
Precautionary Measures Fire: Exercise caution when fighting any chemical fire.
Firefighting Instructions: Use water spray or fog for cooling exposed containers.
Protection During Firefighting: Do not enter fire area without proper protective equipment, including respiratory protection.
Other Information: Refer to Section 9 for flammability properties.

SECTION 6: ACCIDENTAL RELEASE MEASURES

6.1. Personal Precautions, Protective Equipment and Emergency Procedures
General Measures: Avoid all contact with skin, eyes, or clothing. Avoid breathing vapor, mist, or spray.

6.1.1. For Non-emergency Personnel
Protective Equipment: Use appropriate personal protection equipment (PPE).

6.1.2. For Emergency Responders
Protective Equipment: Equip cleanup crew with proper protection.

6.2. Environmental Precautions
Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters.
6.3. Methods and Materials for Containment and Cleaning Up
For Containment: Contain any spills immediately and dispose of waste safely. Spills should be contained with mechanical barriers. Transfer spilled material to a suitable container for disposal. Contact competent authorities after a spill.

6.4. Reference to Other Sections
See Heading 8. Exposure controls and personal protection.

SECTION 7: Handling And Storage

7.1. Precautions for Safe Handling
Hygiene Measures: Handle in accordance with good industrial hygiene and safety procedures. Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work.

7.2. Conditions for Safe Storage, Including Any Incompatibilities
Technical Measures: Comply with applicable regulations.
Storage Conditions: Store in a dry, cool and well-ventilated place. Keep container closed when not in use. Keep/Store away from direct sunlight, extremely high or low temperatures and incompatible materials.

7.3. Specific End Use(s)
Truck Wash

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1. Control Parameters
No Occupational Exposure Limits (OELs) have been established for this product.

8.2. Exposure Controls
Appropriate Engineering Control: Ensure adequate ventilation, especially in confined areas. Emergency eye wash fountains and safety showers should be available in the immediate vicinity of any potential exposure. Ensure all national/local regulations are observed.

Materials for Protective Clothing: Chemically resistant materials and fabrics.
Hand Protection: Wear chemically resistant protective gloves.
Eye Protection: Chemical goggles or safety glasses.
Skin and Body Protection: Wear suitable protective clothing.
Respiratory Protection: No Occupational Exposure Limits (OELs) have been established for this product.
Environmental Exposure Controls: Do not allow the product to be released into the environment.
Consumer Exposure Controls: Do not eat, drink or smoke during use.

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

9.1. Information on Basic Physical and Chemical Properties
Physical State: Liquid
Appearance: Amber Clear
Odor: Mild, Burnt Sugar, Pleasant
Odor Threshold: No Data Available
pH: >3
Evaporation Rate: No Data Available
Melting Point: No Data Available
Freezing Point: 32°F (0°C)
Boiling Point: 100 °C 214°F
Flash Point: N/A
Auto-ignition Temperature: No Data Available
Oxidizing: No
Decomposition Temperature: No Data Available
Flammability: Not Flammable
Vapor Pressure: No Data Available
Vapor Density: (Air=1) >1
Relative Vapor Density at 20°C: No Data Available
Relative Density: No Data Available
Specific Gravity: Water (1) 1.085
Solubility In Water: Complete
Partition Coefficient: N-octanol/water: No Data Available
Viscosity: That of Water
VOC'S: None
9.2. Other Information: No additional information available.

SECTION 10: STABILITY AND REACTIVITY

10.1. Reactivity: Hazardous reactions will not occur under normal conditions.
10.2. Chemical Stability: Stable under recommended handling and storage conditions (see section 7).
10.3. Possibility of Hazardous Reactions: Hazardous polymerization will not occur.
10.6. Hazardous Decomposition Products: Should not occur. If in fire Carbon Oxides may be produced. (CO, CO₂)

SECTION 11: TOXICOLOGICAL INFORMATION

11.1. Information On Toxicological Effects

Symptoms/Injuries After Inhalation: May cause respiratory irritation.
Symptoms/Injuries After Skin Contact: May cause skin irritation.
Symptoms/Injuries After Eye Contact: May cause eye irritation.
Symptoms/Injuries After Ingestion: Ingestion is likely to be harmful or have adverse effects.
Chronic Symptoms: None expected under normal conditions of use.

SECTION 12: ECOLOGICAL INFORMATION

12.1. Toxicity No additional information available
12.2. Persistence and Degradability Readily biodegradable per OECD Test. 90% 7 Days
12.3. Bioaccumulative Potential None
12.4. Mobility in Soil No additional information available
12.5. Other Adverse Effects
Other Information: Avoid release to the environment.

SECTION 13: DISPOSAL CONSIDERATIONS

13.1. Waste treatment methods
Waste Disposal Recommendations: Dispose of waste material in accordance with all local, regional, national, and international regulations.
Ecology – Waste Materials: Avoid release to the environment

SECTION 14: TRANSPORT INFORMATION

14.1. In Accordance with DOT Not regulated for transport
14.2. In Accordance with IMDG Not regulated for transport
14.3. In Accordance with IATA Not regulated for transport
14.4. Based on test results this mixture is not regulated by DOT when shipped by truck, rail or ocean freight.
Ref. 49 CFR 173.364(A), 173.137 ATSM G-31, Draize skin rabbit. When shipped by air consult other DOT regulations.
14.5. Proper Shipping Name: Compound Cleaning Liquid NOI

SECTION 15: REGULATORY INFORMATION

15.1. US Federal Regulations
15.2. US State Regulations Neither this product nor its chemical components appear on any US state lists.
TSCA (Toxic Substance Control Act)
All components of this product are listed on the U.S. Toxic Control Act Chemical Inventory (TSCA Inventory) or are exempted from listing because a Low Volume Exemption has been granted in accordance with 40 CFR 723.50.
SARA TITLE III (Superfund Amendments and Reauthorization Act)
311/312 Hazard Categories
None
313 Reportable Ingredients:
CERCLA (Comprehensive Response Compensation and Liability Act)
None
California Prop 65, Safe Drinking Water and Toxic Enforcement Act of 1986
There are no reportable chemicals present known to the state of California to cause cancer or reproductive toxicity.
CPR (Canadian Controlled Products Regulations)
This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations and the SDS contains all the information required by the Controlled Products Regulations. WHMIS Classification: D2B
IDL (Canadian Ingredient Disclosure List)
Components of this product identified by CAS number listed on the Canadian Ingredient Disclosure List are shown in Section 3.
DSL / NDSL (Canadian Domestic Substances List / Non-Domestic Substances List)
Components of this product identified by CAS number are listed on the DSL or NDSL, or are otherwise in compliance with the New Substances Notification (NSN) regulations. Only ingredients classified as “hazardous” are listed in Section 3 unless otherwise
**Components of this product identified by CAS numbers are on the European Inventory of Existing Commercial Chemical Substances.**

**Risk Phrases**

- R36/ Irritating to eyes

**Symbols(s) Required for Label**

| GSH-07 | Irritant |

**Precautionary Statements:**

- P280 [Wear protective gloves/clothing/eye protection]
- P264 [Wash thoroughly after handling]
- P305 [If in eyes] + P351 [Rinse cautiously with water for several minutes]
- +P338 [remove contact lenses continue rinsing]
- P337 [If eye irritation persist] +P313 [Seek medical advice/attention]

**SECTION 16: OTHER INFORMATION, INCLUDING DATE OF PREPARATION OR LAST REVISION**
