

EDUCATIONAL "BROWN BAG" SEMINARS

presented by

A-LOK Products, Inc.

Who said there's no such thing as a free lunch?

Now you can eat "on our nickel" while you . . .

- . . . learn about the latest watertight technologies for storm sewers
- . . . discover how any municipality can improve its pavement longevity and reduce its road maintenance budget
- . . . find out how sealed storm systems help reduce non-point source pollution as part of the EPA new Phase II rules & regulations

And much, much more . . .

This free one-hour, lunchtime seminar has been recommended by 82% of attendees as a valuable learning experience.

If you represent an engineering firm, D.O.T., city or town who might be interested, please fill out the form below and give it back to the gentleman who gave it to you.
